

The Polack Presents the

~~Journal~~ ~~after Journal~~, ~~Journal~~ ~~Journal~~, ~~Journal~~ Journal

#2

John came over last night and asked me if I would help him. I said yes and he stuck me with this. So now I'M (Dale Bosowski) the new editor of the Monthly Journal. I'll get him for this. Anyway I'll try to do a good job.

First off there is a little matter of money. The Journal is now separate from the Brandenburg and if you want to get it, it is going to cost you. \$1.50 for non members of the Prussian Guard and \$1.25 for members (complain to John not me). People who are not members of PG will stop getting DB and the credit you have left from it will be extended to the Journal (see below). Please get your money as soon as possible or there will come a month when you get no more Journal.

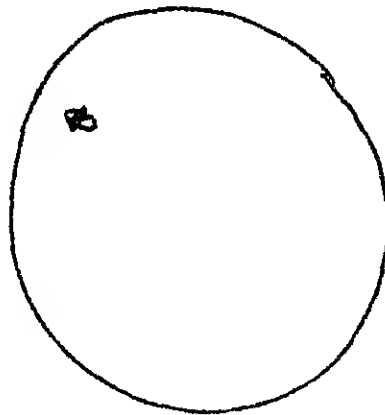

Because the Journal is now separate we can expand to more games. Bruce Gletty is starting 2 more games (see his section) and John Mensinger will also be starting a game or two. John's game will cost 75¢ for a first game and 50¢ for a second game. Please join and get your money's worth. Also for people in games please get your move in it makes a lot better game when everyone is participating.

If anybody has any suggestions please send them in I can use all the help I can get. My address is 2904 Hemminger Way, Modesto Ca. 95350
John's is 1320 Magnolia Ave. Modesto Ca. 95350
Bruce's is 910 West California Rm #10, Urbana, Ill. 61801

Kobeldomichtenstein-I am making what I hope is my last correction to a long series of mistakes. Last month it was stated in the journal that in Game II(19704) Germany's Army Munich retreats to Burgundy. Well, Germany's Army Munich does not retreat, mainly because it didn't exist. It had been removed the winter before. I overlooked this fact when setting up the game. I appreciate the help you guys have been giving me by calling my attention to these mistakes. If you do not do this they will never be corrected.

For those of you who are in Game I, Austria has been taken over from Ken Jenner (at his request) by Mike Byrnel. His adress is 2402 Ridgewood Ct., Modesto Calif. 95350. I didn't recieve a move from Mare Martin this turn but I believe he can still still be contacted at his Thomasville address. To Edwin Henry of Game I You have not sent in your moves for three or four months. Please contact me concerning your status in Game I(Are you in or out?)

Press releases Game I

Editor's Note: As will be remembered, last month a press release came to me from England and a censored version appeared in the Journal. The Journal's man in Paris contacted the Premier of France(the main object of the press release) and asked him for comment on the charges that the pressrelease levied. Now as an exclusive to the Journal, here is the uncensored version of the English press release and the French Premier's reply.

Prussia, (English HQ), April 10, 1905-The Royal Zoological Society has been recieving reports of various strange creatures being born on the Continent of late. The most common of these are born of pigs, mainly in the "Republic" of France. They have pig-like bodies, (though they are larger than normal piglets) with heads that look remarkable human. To be more specific, the countenances of these strange creatures resemble the one which now defaces the new issue of French Coins and Paper money.

One of these creatures was taken to the French Premier for his opinion as he is considered an expert on pigs. (He has a huge pig farm in Gascony for scientific research -he says). The Premier was reluctant to view it, but he finally did and leaned closer to the little beast, it gave a squall of joy and emitted a two-syllable oink which sounded very much like "daddy".

Confronted by the evidence of his nauseating perversions, the Premier ran from the room jabbering, "Wein, Mein, es gehört mir nicht." Translated, this means "No, No, it's not mine." The Premier has been learning German so he can better fulfill his job as First Lackey to the Kaiser.

With enemies like these England needn't expect anything but eventual victory. However, those of tyou who made reservations in Paris hotels for the next week would best cancel them. Remember there will always be a England and keep a stiff upper lip.

(Editors note-The Journal does not approve, nor does it usually allow Press releases of this nature. This one was printed at the special request of the French Premier. However one may notice that all releases that have come from the English since 1902 have dealt with subjects of these natures. This shows what type of mind the Chief of State of England has.)

Paris, October 25, 1905-Today, the French Premier got a very interesting dispatch from Kobeldomichtenstein. In it was the ravings of a mad man, Stuart Trembly. This poor tyrant, who had for so long brought bloodshed and war in a peaceful world

and oppressed the people of England apparently has fallen to pieces since he doesn't have any means to plunder innocent neutrals and to kill the cream of England's manpower in despotic wars. The mighty ruler of France (which now includes Spain, Portugal, Belgium, and most of England not to mention Andorra or Monaco) was highly amused at the latest creations of this maniac's mind. He urges that the Journal print this release to show how incredible and unbelievable it is. Everybody knows that the charges made against the Premier are as plausible as Trembly's mind is sound. Also, the printing of this shall show what a babbling idiot this disgruntled, despised has been is. The French Premier closed with the hope that now with warmonger Trembly's power broken, the world shall again find true happiness and peace. The French are sincerely dedicated to this lofty laudable ideal. The Premier then retired for the night to his harem of screaming cows.

Vienna, October 27, 1905-President Ernst von Korbz decided that he didn't like Cossini's bad breath and his armies in Bohemia and Tyrolia. So after a conference with General Jenner which lasted as long as you can say "Ready, aim, fire." The President has instructed General Byrne to throw the Italians out of the country so as to preserve the equanimity of the Central Powers. Also, the President wants the Turks out of Constantinople, because they're polluting the Aegean Sea by the Summer Palace.

(Special note-This is messy and there are a lot of errors because this is the
second time we typed this up-the first master was ruined and we had to type this
up in a hurry. Again, my apologies-John.)

Bosowskiville. Oct. 10, 1904--Czar Jenner went to Turkey again to talk to Sultan Goss. Upon seeing him he dropped dead. The British mourn his death and wish the best of luck to the new Czar, Czar Wright (?)

Once a pig slopper ~~gain~~ the Southern Mississippisky (or was he the sloppie(?)) he must now face the task of conquering the feeble Aust Austrians. Because of his retarded mind and weak character, the Polish Con. of States will assist him in any way it can. Already an exchange program of vodka and rum has been started. But above all things the P. C. of S. hopes he will not go to Turkey.

Over yodel hammen Swiszerland, Nov. 1, 1904--The first combat results have been reported in and it seems a new weapon to combat the Russian menace has been found. Moor horseman hired by the Emancipated German Government and war vets. Having never seen anything white in color let alone horses the Polish defenders fled in sheer panic after seeing the bloodthirsty horsemen attack. The only true causality's were 4 cases of indigestion suffered by the moor's tasting Polish cursive. Cursive was then let go to go back to her hamlet.

Schadferhunte of the Danbue (which is really on the Rhine) Nov. 7 1904 The captain of the Andorran Submarine Corps reported today that there was a complete loss suffered in the Russian food supply after tea Andorran successfully aran a garbage convey aground. The British balance of trade is now in an imbalance and there is talk of devaluing the value of the Rozowinkie unit to half it's present value (from zero to 1/2 of zero).

Vienna, Nov. 18, 1904--Thousands of German refugees have streamed into the Danube Monarchy fleeing oppression and stupidity with the oncoming of the barbaric Russians and dejected English. These refugees are joining the Austrian army, and are being formed into special units known as the German Freedom Fighters.

Serbia Nov. 19, 1904--Von Koch made a speech today. "My friends, (Two of his in-laws were in the audience). It is my privilege to report to you that the era of lunacy is over. Turkey is dying and Russia and England will soon follow. Their day is ending. Good will triumph over evil. Austria and Italy will rule the world." The audience went wild (they were half crazed to begin with) and ran through the streets. (they were rabid.)

Humbillmeier, Tyrolia Oct. 19 1904--In a daring escape today by ballor Kaiser Douglas succeeded in keeping the royal person(himself) out of harm's way and not little British hands. Given temporary political asylum by General Von Roche the Kaiser made the following Foreign Affairs Statement. "This is only a temporary setback in our European expansion. Soon the armies of Reich will stomp the imperialistic Rusksies and WASP'S into the ground. The ground of Germany will be a little cleaner after the secret Austrian weapon StasFungas (released under General von Roches express orders) has been swept from our fair land. Reports have come in from the unknown Rusch beerhalls of Russian crimes against the Motherland (WASP Where Anglo-American Puppets)

Bosowskiville Oct. 29, 1904--Emperor Jozo Michal Kaiser confer the best of luck in that gift beer stolen in the cry

Prattishien, Bohemia, Oct. 27, 1904-The English have once again been tricked at their own game. In a daring move two complete British armies made an attempt at capturing Kaiser Douglas. After a feverishly pitched battle against the palace custodian staff, the British with minor Russian assistance (the use of their swamp slime) stole into and supposedly captured the Kaiser in the thrown room. In a reality what the Brittish succeeded in capturing was a life size wax bust of Lord Nelson, praising the Kaiser's choice of flooring material. The British realized their error when they recieved no report from the fleet carrying the supposedly captured aiser. The remains of the sailors were found saluting the wax figure and waiting for him to return the salute. Another example of the finely trained masochistic British troops.

(Perhaps if the Germans were to spend more times on their moves and less on press releases they could get a second supply province-Bozo)
